IHET Basic Process
i-LOR, LLC
03/16/01
IHET toolset inserted into HTML page manually or via server program. This can involve but is not limited to adding a MouseOver event to the <a> tag that is the link catalyst which uses DHTML to "pop-up" a toolset over or near the associated link.
The toolset can be implemented as, but not limited to, a graphic with associated image map that uses OnClick events to call the desired functions. The four that are described here are: Check It Later, Anchor Here, Open in New Window and Open in Taskbar.
On MouseOver of enhanced <a> tag
Use DHTML to display menu
Toolset Choices
Check It Later
Anchor Here
Open in New Window
Open in taskbar
Does "Check It Later" window exist?
NO
YES
Create "Check It Later" window and insert JavaScript to provide for "Check It Later" functions, such as remove, email, make favorites. Create a form for entries.
Insert saved item as full anchor with associated URL. Make it a checkbox form control.
Does "Anchor Here" window exist?
NO
YES
Create "Anchor Here" window
Insert anchor tag with associated URL of calling page.
Open URL in a new browser window
Open URL in a new browser window
Return focus to parent window
Check It Later Functions
The following functions are available when selected from the "Check It Later" window
Click-thru. Since item is an <a> tag, this is provided by browser
email. Submit the form to the Java Server page program which forms an email including the selected items
Remove. Use DHTML to remove selected items from the form
Make Favorite. Call IE API to convert selections to IE Favorites

MyLOR personalize iLOR Search

iLOR is not just a "search engine".
It is a "Research Engine"!
iLOR Search results have many more options than regular search sites! When you pause your cursor arrow over a search result using iLOR, an option menu appears that gives you exciting, useful and easier ways to explore the results that are relevant to your search and ignore the ones that are not.

- make your web search quick and efficient
- no more clicking the "back" button a million tim
- no more running searches over and over
- pick only the results that are important to you
- put the best search results in "My List"
- save search results for later use
- explore any result and never get lost
